## 2- Changes to auto addition of exams on a health case (IRCC only)

a. eMedical will now add age appropriate examinations as per table below:

Age	Exam
If the client is under 11 years of age	501 (Medical examination)
If the client is 11 years or older but under 15 years of age	501 (Medical examination) 502 (Chest X-ray examination)
If the client is 15 years or older but under 75 years of age	501 (Medical examination) 502 (Chest X-ray examination) 704 (Serum Creatinine) 707 (HIV) 712 (Syphilis)
If the client is over 75 years of age	501 (Medical examination) 502 (Chest X-ray examination) 704 (Serum Creatinine) 707 (HIV) 712 (Syphilis) 901 (Mini -mental) 903 (Activities of Daily Living)

- b. For a UFM health case, if age is changed using 'the Edit case' button, then the required exams will be automatically added/removed as per table above.
- c. The rules for auto-addition of examination(s) have been modified. For detailed information, please refer to 'Tip sheet - Automatically generated examinations and auto B- grading arrangements' that is available under the Canada Specific folder of the eMedical Support.
