In 2017, 30% of overseas-born (non-refugee) migrant school leavers reported that they could have a conversation about everyday things in English well or very well. In 2018, 45,233 school children from a migrant background received ESOL support. Overseas-born (non-refugee) migrant children make up just over half of those who receive ESOL funding.

90% of recent migrants with pre-paid English language tuition entitlement ending in 2016 had all or part of their ESOL tuition as at 31 December 2018. The rate of uptake is higher compared to the previous years.

In 2017, 76% of TEC-funded ESOL went to migrant enrolments in ESOL courses, as compared to previous years.

Proportion of recent migrants who felt that New Zealand was their home.

The majority of recent migrants feel they belong to New Zealand. In 2017, 82% of recent migrants reported feeling that New Zealand is their home, similar to what was reported in previous years. In 2017, 61% of recent migrants said they belonged to at least one social group or club - small increase from 50% in the previous year.

71% of recent migrants said they voted in the 2017 NZ General Election. This is a small increase from 70% who said they voted in the 2014 election.

Recent migrants are more likely to experience discrimination than the New Zealand-born population. The proportion of those who reported experiencing discrimination has increased from 58% in 2014 to 63% in 2016.
